The basis of representation will be the same as that used for the District Convention

Per order of Committee

Bangor, July 17, 1848

Penobscot and Piscataquis *Congressional Convention.*

THERE will be a Convention of the Whigs of the *Congressional District* composed of Penobscot and Piscataquis Counties at EAST CORINTH on *THURSDAY, the 17th day of August next* at 11 o clock, A M, for the purpose of nominating a candidate to represent said District in the next Congress Also, to nominate a candidate for Elector of President and Vice Pres dent

Towns having 1000 inhabitants and under, two delegates, over 1000 and under 2000 four, over 2000 and under 3000 six over 3000 and under 5000 eight over 5000 fifteen Th census of 1840 to be taken to determine the number of inhabitants

It is hoped that every town will be fully re presented

Per order of Committee

July 11

☞ *The Washington Union is out against GEN. TAYLOR because he is pledged to yield his assent to the doctrines of the Wilmot Proviso, and is pledged not to resort to the Presidential Veto against it, if the people shall constitute a Congress that shall enact those doctrines into a law.*

☞ *"I do not desire the presidency, and only consent to be a candidate in the same proportion in which it is desired by the people irrespective of party; and he that cannot be trusted without pledges, cannot be trusted with them. I have no private purposes to accomplish—no party projects to build up—no enemies to punish—nothing to serve but my country."*

[ZACHARY TAYLOR.

☞ *"If the enemy oppose my march, in whatever numbers, I shall fight him."—GEN TAYLOR at the battle of Palo Alto.*

"Keep it Before the People."

At the Ulica convention of Barnburners that met in February last, the following resolution was reported by a committee to which JOHN MOUSEY adopted

Resolved, That Gen ZACHARY TAYLOR by *his masterly correspondence* with the War Department no less than by his heroic conduct and indomitable coolness and courage on the field of battle has shown himself to be not only a distinguished military chieftain, but *a man of great mental and moral power*, and whose life has given evidence of a *strong head, an honest heart, and a Republican simplicity of character.*

☞ The operation of the Free Trade Tariff of 1846 has been to increase the importation at New York port of bar iron from 846 tons to 1848 from 6 606 tons to 13 600 tons—of Pig iron from 7,716 tons to 23,963 tons of sheet iron from 26,428 bundles to 75,532 bundles or an increase of importation of bar iron equal to one hundred and seventy per cent, of Pig iron equal to one hundred and sixty-nine per cent, of sheet iron, equal to two hundred and fifty five per cent

The effect further has been, according to the New York Express, "to stop the rolling mills and rail road iron factories (except such as have old contracts,) and to make the bar mills stop work at night which was not the case in 1845 and 1847, before the new law was fully in operation

Another effect has been to fill our warehouses with foreign iron, which we must consume before our own can come into use—thus taking from the laborer at home his means of subsistence and forcing him back to agricultural labor, which at present prices he can ill afford to pay largely This increased importation must be paid for in money, for the European iron makers cannot take pay in our farm produce because the crops of their own country are now equal to their wants

Thus the present administration, by its uncalled for alterations in our commercial policy has inflicted the most serious evils upon the labor of the country The facts we have given, are no a bad standard by which to estimate the increase of manufactures generally that fill our warehouses and drive from our workshops other manufacturing laborers The evil of excessive importations, induced by an ill arranged and diminished tariff will go on, and must continue for some time to come, but the sooner the remedy is applied, the better for the country

Instead of having the workshops of the United States abroad we must return to the policy which builds them up in every State, and puts them within the reach of every farmer a produce We must find manufactories employment for the surplus labor that now seeks the farm to increase the production of articles for which profitable consume s are now wanted—We must look at home for our market for produce and adopt the good farmer's plan of buying nothing that we can well make at home

All these matters should be taken into consideration by the freeman of our country in the settlement of the political affairs of the country For in no country in the world are the evils which afflict society more truly political than in this

Penobscot and Piscataquis Congressional Convention.

This convention of the friends of Taylor and Fillmore will meet at East Corinth on the seventeenth day of August next for the purpose of nominating a candidate for Representative to Congress and also a candidate for an Elector of President and Vice President

It is highly desirable that every town in the district should be represented and for this purpose preliminary meetings should accordingly be called for choosing delegates Let every freeman bear in mind that in the election of Gen Taylor the people look for a noble restoration of the Constitution The selfish views of political leaders has drawn to themselves under the name of party what was meant for country and thus subverted many of the powers of the Government, and left other powers, which should be in active exercise for the benefit of the whole people to be neglected and dormant Step by step the power of the President has been encroaching upon the rights of Congress until the government has been usurped from its legitimate practical effects and the people suffer

In order to secure to the country a wise and safe administration it is not only requisite that the moral and principles of Taylor be elected but that a majority of correspondings views should be returned so that instead of a responsible for such there may be vigorous, honorable a speedy and a united effort made to promote the general welfare and not to protect the liberty but also the means and to extend the area of the people, so that they may not only have free homes but prosperous contented and happy homes with ability to educate their children and have better and more institutions established for the good of all than can be the people of any government on the

American freemen ought not to be contented with the present state of affairs in form and name but the best is not the best practicable the best to every reasonable extent in which there shall be no delay in securing its results They should have the government so administered that the humblest laborer in it may share in the freedom it secures and in the benefits it confers upon American labor Now is the time to move in this behalf and by wise and prudent and energetic movements these advantages may be secured

The American Review July 1848

This number of this excellent work for the month of July has been received It approves itself cordially the nomination of Gen Taylor and heartily for the Presidency and gives a reasoned and fully and fully They are such as ought to satisfy every man doing to be a Whig

This monthly occupies the highest point in our country as a literary publication and is an honor to the ability and good taste of our countrymen

Its embellishments are in the highest style of the art The present number contains a fine and life like portrait of Hon J R Ingersoll of Pennsylvania

We have repeatedly commended the work to the Whigs and the literary men of Maine but we feel that they have not made themselves acquainted with its merits and that they do not know what they lose thereby It would afford us pleasure to forward the names of subscribers, free of charge and of consequence

☞ Engraving No 6 Liberty was on yesterday in full operation with their splendid steam power press They made a grand display and from the specimen of the result at the power of the machine which they exhibited there can be no doubt of their doing full execution in case of fire? We have no space to day for a description of the Engine which was built by Messrs Hinckley & Eger, but the elegant Hose Carriage designed and constructed by Capt Wm Ray—this must be attended to another day, when we hope to do credit to all the workmen to whom the city is indebted for the beautiful and finished workmanship seen in these valuable inventions

☞ The House of Representatives have rejected the Free Soil by the passage of a resolution that the reasons assigned by the President in the Veto Message of December 15, 1845 for the approval and signature of the bill passed March 1—47 reducing the rates of postage on certain harbors and rivers, and duties insufficient and unsatisfactory The vote stood ninety one in the affirmative and ninety one in the negative Bottom was Smart Wiley, Williams and Clark, the members from Maine, voted in the negative, and Belcher, Wing and Clapp were absent

Sanford a gentleman of station is better than a buster The language of contempt did him terrible before the recent conventions and from the confident manner in which they spoke of their power and certain victory one would infer only suppose they really expected to succeed Their fears they failed in all the nominations—but made out to get passed a resolve as freely walled down that no one could see the point This they accomplish successfully How like the mischievous boys—Darn ye—I'll cut lick ye I dar make un mouths at your sister

☞ We have received the July number of Fowler & Wells American Phrenological Journal This is a work we value highly as it is peculiarly illustrating a noble law of nature applicable to mankind It is an enlightener of the mind and holds out to men the importance of their becoming acquainted with themselves, and teaches them how to acquire such knowledge It is a family companion beyond all estimable value—The price is but one dollar a year and it will make a book, good for all time,

☞ The editor of the Bangor Gazette appears to be quite angry because we stated that Mr Woodman's papers for signature calling a Convention at Portland were sent to him The fact he is compelled to admit, for we should have proved it upon him, if the statement of a fact offends our neighbor we shall not seek a remedy but just look on and see what he intends to do about it

☞ Let it be borne in mind that the county convention for the nomination of Senators and county officers will be held at East Corinth on the 17th day of August next and that it is very desirable there should be a full delegation from every town in the county

☞ The misfortune was experienced in our office this morning of the newspaper falling into pi This will account for the delay in the issue

☞ The opinion seems to be prevalent at Washington that a majority of the *'Democratic'* Senators from the North are in favor of giving up to slavery the whole of the territory ceded to Mexico known to be adapted to settlement and also that in the House certain members from this State will yield to the South if their votes are required on this subject

☞ A correspondent states that an insect is making sad havoc among the ornamental trees, particularly the elm, in this vicinity, and desires some one to suggest a remedy The insects deposite their eggs upon the leaf and soon after they are hatched, the leaf dies

☞ Theophilus Parsons, Esq, has been unanimously elected Dane Professor in the Law School at Cambridge in place of Professor Greenleaf resigned Mr Parsons it is understood, has accepted the appointment and will enter on the duties of the office at the commencement of the next term

Fire at Calais.

At 3 o'clock on the morning of July 15th a building occupied by N R Burnham and a store occupied by James Granger in Calais were burnt In surance on building $1 600, on goods $3 000, but it will not cover the loss

The three millions to be paid to Mexico have already been forwarded there by our Government and most of that sum has already been met here by the Treasury

☞ Our farming friends are now having capital haying weather and appear to be improving it to the best advantage There will be a good crop of hay

The store of L S Smith at Hampden was robbed last night—all the woolen goods to the amount of about five hundred dollars were taken The robber has not been detected,

☞ Thanks to Jerome & Co's Express for papers received on yesterday, in advance of the mail

Democratic Platform.

In earlier days when Democracy had not progressed ere the fame of Washington and Hamilton had waned before that of Polk and Walker there was supposed to be a rule binding upon all to which all questions were to be referred i e the Constitution of the United States

But greater men came upon the stage and first by understanding took the place of the Constitution—then came following in the footsteps of my illustrious predecessor"—the resolutions of the Baltimore Convention of 1844,' down down, ("in the succession Averani") to the platform which is broad enough for the five loaves and two fishes principle but has dropt it from sight The Dictator of the party rather than the Constitution has been the governing principle of the self named Democrats Each of our candidates successful or defeated has been laced up in platforms like the Nessus Sancho Panza doomed an shields to do battle for his principality

Instead of Chief Magistrates and candidates for the Chief Magistracy professing to govern and be governed by and according to the Constitution they are and have been by great violence advised by Democracy in boards price list &c &c has come to this a body of irresponsible office holders and office seekers delegated by hap hazard by packed conventions elected in packed caucuses, have taken it upon themselves to make a program me by which twenty millions of people are to be governed who expected had already in convention ordered that we the people of the United States in order to form a more perfect union provided for the common defence promote the general welfare and secure the blessings of liberty to ourselves, and our posterity do ordain and establish this Constitution for the United States of America This Constitution elaborated by the consecrations and philosophy of Franklin—the cautious judgment and foresight of Washington the profound statesmanship of Hamilton and the lofty reason of Madison diffused and distributes to each branch its proper share of government It provides amongst other things that the State which may be ceded to the Union shall be admitted on an equal footing with the original States but nowhere makes provision whereby the work of a body of men whose equal on this world never hath assembled, should be superseded by the Platform of a Meeting though that Meeting were headed by a Hallet and a Muncey Prior to the age of progressionalists progress the Chief Magistrate was supposed anxiously and carefully to enquire if a certain measure was demanded by the public good and in accordance with the Constitution he consulted his constitutional advisers and approved or returned the bill But now some Progressive dissatisfied with his slow course towards the heap of spoils cries out

It is the stars

The stars above that govern our condition

A neck and heels all star struck proglor ng Democrats (bearing Law and Constitution behind) like the beaded boys after the pot of gold at the end of the rainbow And if this programme governing be not rebuked by the people, instead of the noble spectacle of great men in grave deliberation at Cabinet Councils we shall see Snug, the joiner enquiring of some Peter Quince,

Snug—

Have you the lion's part written? pray you If it be give me for I am slow of study

Doth the moon shine that night we play Our play?

Bottom—

A calendar a calendar look in the almanac Find out moonshine find out moonshine!

Quince—stopping at the platform!—

Yea it doth shine that night

And I much fear me that of our Institutions we may say Moonshine and Lion are left to bury the dead M——

Gen. Taylor in Indiana.

Here is an interesting extract of a letter from Posey county, In, that we have just read dated the 2d inst —

"I am in for 'Old Zach' as are lots of other Democrats The county you know, gave Polk a majority of nearly 600 Well we are going to demolish that, and perhaps squeeze out a majority for the man that never surrenders, if things go on as well as they seem now We all first set our pegs to save the vote of Harrison in '40, which 250 majority for Van, but we will do more

The Shipmasters and Gen. Taylor.

A committee of shipmasters yesterday waited upon General Taylor, calling to mind their familiarity He has named this day at 12 M, at the St Charles Hotel, at which time and place all the shipmasters now in this city are respectfully invited to attend.—N O Pic, July 8

General Taylor.

The veteran, accompanied by Colonel Bliss, left the city on Saturday afternoon, on board the steamer Natchez on his return to his headquarters at Baton Rouge His visit to New Orleans was purely official as commander of the district The knowledge that he was going in the Natchez aroused the boat with passengers, and many had to come ashore and take other boats she being unable to accommodate them.—N O Bulletin 10th

New York Tuesday July 18th
8 o'clock, P M

We learn from Washington that Gen Lowe's nomination was confirmed in the Senate today

The Select committee on slavery will, it is said report three bills, organizing severally the territorial governments of California, New Mexico, and Oregon, and keeping the slavery question to be decided by the people of each territory

Gen Cushing left Washington for Boston this afternoon,

The barnburner meeting is now in session in the Park, and a large crowd is assembled — There are 108 Vice Presidents and 36 secretaries The resolutions declare that those supporting them adhere to the democratic party, that the proceedings of the Baltimore Convention were a fraud upon that party they condemn the nomination of Cass and Butler, speak of Gen Taylor as [illegible] and highly respectable persons has been [illegible] in favor of his merits as a remedy for cobbs and evils and [illegible] affections of the client diseased liver and dyspepsia

DR W PHELPS Patent Concave Spiral Truss and Abdominal Supporter

New Lodon General Hospital (Connecticut,)
May 31 1848

I have examined Mr J W Phelps's newly invented Patent Spiral Truss and consider it with Boston Valentine Smith Stevens and Parker in their pinions of the principle and structure Having had a great variety of myself and used various kinds of Trusses for the last ten years I concluded to try one of these and find on the application of his spiral pressure and the setting of the pad dispenses of his spiral pressure and the setting of the pad as much easier than any others I have in consequence recommending it in preference to any I have seen

SAMUEL P LEE M C M S

To Mr J W Phelps—Sir—I cheerfully comply with pleasure with your request for my opinion of your Abdominal Supporter for Prolapsus Uteri I have recommended it in many cases, and have heard much favorable expressions of it from those who were using it and myself have been much gratified with the success resulting from its use I went the day before with one to a case of Prolapsus Uteri which I found very much relieved by it and I have no doubt will in a short time effect a perfect cure

DYSENTERY CORDIAL,

—IN—

Immediate & Perfect Cure

—FOR—

CHOLERA MORBUS, DYSENTERY, DIARRHOEA, SUMMER COMPLAINTS OF CHILDREN, SEA-SICKNESS, GENERAL DEBILITY, etc., etc.

WHERE this all powerful antidote is at hand, Cholera, Dysentery and Chronic Diarrhœa are no longer to be seriously feared, or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours, if taken at the commencement.

It has been before the public for more than sixteen years, and was the first article made known to the public as an immediate and perfect remedy for these complaints. It has been thoroughly tested in every country and every climate, and its effect has every where proved the same—SURE TO CURE, even where the disease has advanced to the last stage. The public may rest assured that it contains no ardent spirits or spirituous substance, or any thing that is in the least injurious to the constitution.

Cholera and Common Cholera Morbus.

This Cordial immediately checks the vomiting, relieves the pains and the Diarrhœa and restores the bowels to their natural and healthy state; however severe the attack it can be or however low the patient may have become it unfailingly restores.

Severest cases of Dysentery

are immediately controlled, the pains are allayed, the bowels become cool and not quite so frequent, and in the short space of ten or twelve hours.

Chronic Diarrhœa,

either in children or adults of months or years continuance, are most readily cured with the Cordial sometimes using they may be reduced to a mere skeleton. Immediately strengthens, and shortly restores them to perfect health.

Cholera Infantum.

It has saved the lives of many thousand children when reduced to death's door by this complaint; it gives them immediate relief, and they very soon recover.

Sea Sickness.

It has a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and readily destroys the nausea. It invariably checks vomiting, no matter from any cause whatever.

Children that are Teething,

of infirm or diarrhœal habit should always be provided with this valuable remedy, as it will keep the bowels regulated, and keep off the Canker. It is wholesome, safe and pleasant to the taste, and children are fond of it, and will take it without trouble or stealth.

For General Debility and Dyspepsia,

It is in fact a excellent restorative, giving a healthy tone to both the stomach and bowels, and prevents food from passing off disturbing the stomach.

☞ CAUTION.

Beware of those impostors which are daily imposed upon the public, bearing the name of one word, such as CHOLERA MORBUS DYSENTERY, and DIARRHŒA CORDIAL, which contain poisonous drugs, ingredients and properties, calculated to destroy life. Also, they have copied the advertisements and peculiarly addressed circulars that I have been compelled to publish, cautioning the public against their worthless articles at the expense and vexation of this original and most popular medicine that ever came before the public.

Be sure and send your orders to MRS. E. KIDDER'S Chronic Cholera Dysentery and Diarrhœa Cordial, and you will get the only true and original article, which has ever been held in the highest estimation throughout the whole country.

It is put up in neat pamphlet wrappers, in small bottles, handy for use, and sold at One Dollar a bottle.

Sole Proprietress,
MRS. E. KIDDER,
No. 100 COURT STREET, BOSTON.

The Great Remedy for Gonorrhœa

GLEET, Stricture, an inflammation compliants DR DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practised in this city—thousands of individuals who are given, due to premature graves by taking the miserable drugs daily sacks

Dr D most solemnly affirms that during the practice of forty years this Paste he never, in one single instance failed of effecting a cure in a few days without any change of diet or drug confinement Has had as many of the most stubborn cases—cases that have resisted the regular practice of treatment applied by our first physicians for months and years without taking the Paste and in a few days the agony and pain disappeared and the patients were discharged entirely cured

If the unfortunate instead of dragging themselves with quack nostrums, would purchase only one box of the Arabian Paste the should not see so many emaciated faces and sallow countenances as we daily meet at the present time

☞In case this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchaser on return of the empty boxes

For sale only by the general Agent and sole proprietor, Dr PETER DOUGLASS at the Office No 50 Union street Boston at $5 per box where he can be confidently consulted on every disease incident to the human frame and the patient receives upon the most beneficial course of treatment that can possibly be adopted

Dr William Wright—Dear Sir—I am one of those many who never could quack nostrums but as proof of the benefits resulting from the use of your good medicines Acting on the first trial I have ever held in reserved to be full box Last March while you were engaged advertising my paper I was induced to give your Indian Vegetable Pills a trial, and after having fairly tested their merits for myself and family gave them a decided preference over every other preparation

In every instance when afflicted with sick headache, or when he stomach or liver was congumbered with morbid humors I found speedy relief from the use of your pills By taking a mild dose or six going to bed when indisposed I have always been restored to health, with out loss of time and without the expense of a physician Wright's Indian Vegetable Pills are the best family medicine that is the first ever offered to the American public

Yours truly, with great respect

JAMES FAIRFAX

[From the Delaware Express Delhi N Y]

WRIGHT'S INDIAN VEGETABLE PILLS—As this is not particularly true of any patent medicine yet we must in this case say we have become convertists Pills having had an opportunity on one or two occasions to test their efficacy I prefer attributed icine, one or two will be found mild though effectual Whether *he or other* cathartics have accumulated more than the public medicine is required a dose of three or four pills on going to bed will be found effectual in cleansing the stomach and restoring the bowels to a healthy state We speak from experience and take pleasure in recommending the pills to the public

DISEASES OF THE Throat and Lungs.

COUGHS and Colds the fruitful parents of Consumption Bronchitis, Asthma, Pleurisy and many other dangerous diseases are too often neglected until the foundation of the Spanish Complaint is laid deep in the System A Pectoral which will relieve and cure the disease is manifestly a far palliatives but declares the disease incurable and the Patient in consumptive of his approaching fate But why does he die? Simply because he does not resort to the proper remedy, but trusts the more gratuitous Practitioner rather than the infallible evidence of experience and the most authentic testimony On this basis is the only true one, the triumph of

Of Twenty Year's Standing!

NEW YORK June 21st 1847.

This is to Certify that I have been a Sufferer for over twenty years with a severe cough and pain in the side and chest, situated will nigh sweats and general weakness and that for more than the last three years I could not rest Night after night I was almost entirely deprived of sleep, and during the day was unable to perform any manual labor, and was confined to the house for months at a time I had been under the care of several of the most eminent Physicians of this city, but received no benefit from their prescriptions, and at last gave up all hope of ever being restored to health Hearing of the wonderful cures performed by Dr VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM I procured one bottle of it, and before I had taken the contents of the bottle I found relief, and after using three bottles was entirely cured, and have been able to attend to my business for nearly a year, without the slightest return of my complaint, and I do most solemnly affirm that during the whole time I was afflicted with the disease I never received any benefit from any medicine I took, and I verily believe that had I not procured Dr VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM I should not have been alive at this day I would most cheerfully recommend the above valuable medicine to all afflicted with Coughs, Colds, Consumption, Asthma, Pleurisy, or any affection of the Throat and Lungs, as I am confident it will cure any case, however bad it may be

CONSUMPTION

SYRACUSE June 3 1847

DEAR SIR—I take great pleasure in giving you my certificate that Dr Vondersmith's Indian Cough Balm and Lung Balsam has cured me of a severe cough and lung complaint, after having been given over by several of the most eminent physicians of this place, and after having taken a large number of bottles of other medicines without receiving any benefit I was induced to purchase a bottle of your Balm, and before I had taken one bottle found myself much relieved, and after using three bottles was entirely cured, and have been able to attend to my business for the last six months, during which time I have had no return of my complaint, and I do most solemnly affirm that I had been to the best physicians in this city without receiving any benefit from their prescriptions, and I verily believe that your Balm has saved my life, and I would recommend to all afflicted with Coughs, Colds, Consumption, Asthma, Pleurisy, or any affection of the Throat and Lungs, to make use of your Balm, as I am confident it will cure any case, however bad it may be

Yours respectfully, JOHN C. BRADLEY

Sworn to before me this 3d day of June 1847

Patent Mill Wheels.

Timbey's Patent

Two Vent Cast Iron Water Wheels

—FOR—

SAW MILLS,

Invented by T R. Timbey of Cato N. Y.

THE undersigned would invite the attention of the Public to the above named WHEELS, which he have been thoroughly tested in Completion with all other popular

SAW MILL WHEELS

now at the present time, and they can confidently recommend them with the same head and quantity of water supplied as the overshot and combining *more strength and speed* and giving a more *uniform* and *Steady Motion* than and out of the cut (and therefore not liable to break cranks) and will also run *Longer* and *Saw more Lumber* under a low head than any other Wheel in use

Another advantage which this Wheel has over others is that it is constructed with but two Vents for the discharge of water which makes the apertures larger and allows the 'drift stuff to escape without clogging up the Wheel

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere

We would also call the attention of Mill Owners and Operators to

Valentine's Patent Reversing Centrifugal Water Wheel,

—FOR—

"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments the Mills and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them a ready sale and in use we feel confident in recommending them as combining more advantages than any other Wheel for propelling Upright Shafts, now used

As evidence of the merits of this Wheel we would refer to the following extracts from the recommendations made with the same by I FRAMARA BEARD Esq Civil Engineer—I owell, Mass who is well known as one of the most Scientific and extensive practical Engineers in this country

"This wheel is formed with curved floats the number of which depend upon the size and ven of the Wheel each one taking as far around the Wheel that when the water arrives at the point its pressure is so far expended that it falls very nearly inperpendicular from the Wheel The Wheel is inclosed in a cylindrical wooden curb rim, upon which the water stands at rest and by which the water being restrained from escaping outwards the Wheel so that it has to do inward pressure upon the Wheel, which stands perfectly free in the centre of water, and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and to much of the power saved which in the ordinary mode of operation is wholly lost

This Wheel is adapted to low as well as high heads of water and will run as well in back water as out of it, providing the head rises to a freshet as fast as the back water But a Wheel with the gate partly gauged for a high head will not answer for low water and vice versa for as the head increases, the width of the gate should be proportionally decreased so that the water may not issue to waste and not give its best effect to the Wheel

"In point of power the trials show come unively that this Wheel is a premium to the best constructed Breast Wheels and it has the advantage of working to good effect in situations where the Breast Wheel would be worthless it at least liable to accidents and to require much repair which the Valentine Wheel is entirely free from and which by its simplicity of construction durability of parts, convenience of application and excellence of power are the grand points to recommendation for this Wheel

I FRAMARA BEARD *Civil Engineer*"

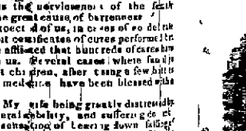
M'Alister's ALL-HEALING Ointment,



IS THE CURE OF colds, coughs consumption, for scrofula, scurvy and all complaints, for bronchitis, sore throats, sore eyes, sores of all kinds, and general debility

This celebrated Ointment has restored sight to many persons who were entirely blind from the effect of this complaint, and has never failed to cure the most inveterate case of sore eyes, however long standing

It is unsurpassed as a remedy for the following diseases viz

Ulcers, erysipelas, salt rheum, pimples on the face &c., fresh wounds of any kind, pain in the back and side, rheumatism, swelling of the glands about the neck, the groins, the axilla or under the arm, abscesses, and all other parts of the body

This Healing Ointment is equally efficacious in promoting the secretions of the kidneys to any thing from retention of urine, and by its restoring the tone and action of the urinary organs, also suppression of urine or the too frequent discharge of the same, thereby equally relieving the nervous system by using as a regular St Vitus dance, palsy paralysis numbness or want of feeling or power of motion from some local or general affection of the nervous system With regard to its great power on all the fluid and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs.

We speak the things which we know of the astounding efficacy of this justly celebrated healing and worthily as used "ALL-HEALING OINTMENT" The innumerable pains that have been arrested, the ten thousand sufferers relieved and cured and the more than ten thousand heart aches have been comforted and cheered by its salubrious efficacy, testifying to the truth of all, and more than all, stems inserted
